

DROPSA

Summary table: pests included in the alert lists

Pest species are listed in alphabetical order. Species written in bold are related to three or four of the examined pathways. Click on the links to access the datasheets that are stored in the EPPO Global Database (in the 'Documents' section).

The colour of the cells indicates the rating attributed to each pest within the specific alert lists:

- **red** = high economic importance and high likelihood of transfer
- **green** = lower economic importance and high likelihood of transfer, or a high economic importance and lower likelihood of transfer
- **purple grey** = possibly emerging pests (for *Vaccinium* berries only)

Pest species	Taxonomy	Pathways			
		Table grapes	Apples	Oranges and Mandarins	<i>Vaccinium</i> berries
Acalitus vaccinii	Acarida: Eriophyidae				green
Accuminulia buscki	Lepidoptera: Tortricidae	green			purple grey
Acleris minuta	Lepidoptera: Tortricidae				green
Acrobasis vaccinii	Lepidoptera: Pyralidae				red
Adoxophyes cyrtosema	Lepidoptera: Tortricidae			green	
Aegorhinus superciliosus	Coleoptera: Curculionidae		red		red
Aleurolobus taonabae	Hemiptera: Aleyrodidae	green			
Alternaria viticola	Ascomycota	red			
Amyelois transitella	Lepidoptera: Pyralidae	green		red	
Archips argyrospilus	Lepidoptera: Tortricidae		green	green	
Archips breviplicanus	Lepidoptera: Tortricidae		green		
Archips fuscocupreanus	Lepidoptera: Tortricidae		green		
Archips micaceana	Lepidoptera: Tortricidae		green		
Archips pomivora	Lepidoptera: Tortricidae		green		
Argyresthia assimilis	Lepidoptera: Yponomeutidae		green		
Argyrotaenia citrana	Lepidoptera: Tortricidae	green	green		green

Pest species	Taxonomy	Table grapes	Apples	Oranges and Mandarins	Vaccinium berries
<i>Argyrotaenia pomiliana</i>	Lepidoptera: Tortricidae				
<i>Argyrotaenia spheropa</i>	Lepidoptera: Tortricidae				
<i>Argyrotaenia velutinana</i>	Lepidoptera: Tortricidae				
<i>Aroga trialbamaculella</i>	Lepidoptera: Gelechiidae				
<i>Biprorulus bibax</i>	Hemiptera: Pentatomidae				
<i>Bonagota cranaodes</i>	Lepidoptera: Tortricidae				
<i>Brevipalpus chilensis</i>	Acarida: Tenuipalpidae				
<i>Carpophilus davidsoni</i>	Coleoptera: Nitidulidae				
<i>Choristoneura parallela</i>	Lepidoptera: Tortricidae				
<i>Cingilia catenaria</i>	Lepidoptera: Geometridae				
<i>Citripestis sagittiferella</i>	Lepidoptera: Pyralidae				
<i>Clarkeulia bourquini</i>	Lepidoptera: Tortricidae				
<i>Clarkeulia deceptiva</i>	Lepidoptera: Tortricidae				
<i>Colletotrichum fructicola</i>	Ascomycota				
<i>Coscinoptycha improbana</i>	Lepidoptera: Carposinidae				
<i>Cotinis nitida</i>	Coleoptera: Scarabaeidae				
<i>Cryptothelea variegata</i>	Lepidoptera: Psychidae				
<i>Ctenopseustis obliquana</i>	Lepidoptera: Tortricidae				
<i>Deudorix isocrates</i>	Lepidoptera: Lycaenidae				
<i>Diabrotica speciosa</i>	Coleoptera: Chrysomelidae				
<i>Diaporthe australafricana</i>	Ascomycota				
<i>Diaprepes abbreviatus</i>	Coleoptera: Curculionidae				
<i>Dichrocrocis punctiferalis</i>	Lepidoptera: Crambidae				
<i>Ecdyolopha aurantianum</i>	Lepidoptera: Tortricidae				
<i>Egira curialis</i>	Lepidoptera: Noctuidae				
<i>Eotetranychus kankitus</i>	Acarida: Tetranychidae				
<i>Eotetranychus sexmaculatus</i>	Acarida: Tetranychidae				
<i>Epiglaea apiata</i>	Lepidoptera: Noctuidae				
<i>Erthesina fullo</i>	Hemiptera: Pentatomidae				
<i>Euzophera pyriella</i>	Lepidoptera: Pyralidae				
<i>Exobasidium maculosum</i>	Basidiomycota				
<i>Frankliniella bispinosa</i>	Thysanoptera: Thripidae				
<i>Gliocephalotrichum bulbilium</i>	Ascomycota				

Pest species	Taxonomy	Table grapes	Apples	Oranges and Mandarins	Vaccinium berries
<i>Grapholita libertina</i>	Lepidoptera: Tortricidae				
<i>Harrisina brillians</i>	Lepidoptera: Zygaenidae				
<i>Helminthosporium papulosum</i>	Ascomycota				
<i>Hylamorpha elegans</i>	Coleoptera: Scarabaeidae				
<i>Hyphantus sulcifrons</i>	Coleoptera: Curculionidae				
<i>Lacanobia subjuncta</i>	Lepidoptera: Noctuidae				
<i>Leptoglossus zonatus</i>	Hemiptera: Coreidae				
<i>Lobiopa insularis</i>	Coleoptera: Nitidulidae				
<i>Lygocoris communis</i>	Hemiptera: Miridae				
<i>Lygus lineolaris</i>	Hemiptera: Miridae				
<i>Marmara gulosa</i>	Lepidoptera: Gracillariidae				
<i>Naupactus xanthographus</i>	Coleoptera: Curculionidae				
<i>Neosilba zadolicha</i>	Diptera: Lonchaeidae				
<i>Nipaeococcus viridis</i>	Hemiptera: Pseudococcidae				
<i>Nippoptilia vitis</i>	Lepidoptera: Pterophoridae				
<i>Ochropleura implecta</i>	Lepidoptera: Noctuidae				
<i>Orthosia hibisci</i>	Lepidoptera: Noctuidae				
<i>Pandemis pyrusana</i>	Lepidoptera: Tortricidae				
<i>Paracoccus burnerae</i>	Hemiptera: Pseudococcidae				
<i>Paracoccus marginatus</i>	Hemiptera: Pseudococcidae				
<i>Paralobesia viteana</i>	Lepidoptera: Tortricidae				
<i>Phlyctinus callosus</i>	Coleoptera: Curculionidae				
<i>Physalospora baccae</i>	Ascomycota				
<i>Plagiognathus repetitus</i>	Hemiptera: Miridae				
<i>Platynota flavedana</i>	Lepidoptera: Tortricidae				
<i>Platynota idaeusalis</i>	Lepidoptera: Tortricidae				
<i>Platynota stultana</i>	Lepidoptera: Tortricidae				
<i>Platyptilia ignifera</i>	Lepidoptera: Pterophoridae				
<i>Praelongorthezia praelonga</i>	Hemiptera: Ortheziidae				
<i>Prays endocarpa</i>	Lepidoptera: Yponomeutidae				
<i>Prays endolemma</i>	Lepidoptera: Yponomeutidae				
<i>Proeulia auraria</i>	Lepidoptera: Tortricidae				
<i>Proeulia chrysopteris</i>	Lepidoptera: Tortricidae				

Pest species	Taxonomy	Table grapes	Apples	Oranges and Mandarins	Vaccinium berries
<i>Proeulia triquetra</i>	Lepidoptera: Tortricidae				
<i>Pseudococcus maritimus</i>	Hemiptera: Pseudococcidae				
<i>Resseliella citrifrugis</i>	Diptera: Cecidomyiidae				
<i>Retithrips syriacus</i>	Thysanoptera: Thripidae				
<i>Rhipiphorothrips cruentatus</i>	Thysanoptera: Thripidae				
<i>Rhynchites heros</i>	Coleoptera: Attelabidae				
<i>Sparganothis sulfureana</i>	Lepidoptera: Tortricidae				
<i>Sphaeropsis pyriputrescens</i>	Ascomycota				
<i>Spilonota albicana</i>	Lepidoptera: Tortricidae				
<i>Spilonota prognathana</i>	Lepidoptera: Tortricidae				
<i>Systema frontalis</i>	Coleoptera: Chrysomelidae				
<i>Teia anartoides</i>	Lepidoptera: Lymantriidae				
<i>Thaumatotibia leucotreta</i>	Lepidoptera: Tortricidae				
<i>Thekopsora minima</i>	Basidiomycota				
<i>Thrips imaginis</i>	Thysanoptera: Thripidae				
<i>Thrips obscuratus</i>	Thysanoptera: Thripidae				
<i>Tolype innocens</i>	Lepidoptera: Lasiocampidae				
<i>Tortrix excessana</i>	Lepidoptera: Tortricidae				
<i>Tuckerella knorri</i>	Acarida: Tuckerellidae				
<i>Xanthomonas campestris</i> pv. <i>viticola</i>	Xanthomonadales: Xanthomonadaceae				
<i>Xylena nupera</i>	Lepidoptera: Noctuidae				
<i>Zaprionus indianus</i>	Diptera: Drosophilidae
